## Your tasks & Responsibilities

- Legal advice on capital market law issues, including European capital market law issues and their implementation into national law (primarily regulatory and securities law matters and civil law issues)
- Legal assessment, drafting and structuring of commercial contracts, including distribution agreements, prospectuses and related financial documentation
- Review and set-up of financial products and complex financial transactions
- Advising the business lines (drafting and reviewing transactional documentation) on all legal matters
- Advising and implementation of upcoming (financial) European rules and regulations

- Monitoring legal and regulatory developments relevant to the Leonteq Group

**Our client's requirements:**

- Law degree and bar exam, additional degree would be of value
- At least three years of experience in a legal function in the financial industry, in particular in investment or corporate banking, or in a law firm advising on capital markets questions/issues
- Fast learner with high levels of confidence, professionalism and diplomacy
- Fluent in English language (other languages are a plus)
